

PEARL

ENERGY INVESTMENTS

ABOUT US

Pearl Energy Investments is a Dallas, Texas-based energy investment firm with \$1.2 billion of committed capital under management. Pearl focuses on partnering with best-in-class management teams to invest in the lower-to-middle market North American upstream, midstream, and oilfield services sectors. The firm typically targets opportunities requiring \$25 million to \$100 million of equity capital.

The Pearl investment team has more than 60 years of investing and operating experience in the energy industry, which gives us the perspective to understand the challenges and opportunities in today's industry. We align ourselves with owner-managers, bring the focus and expertise of the entire Pearl team to each investment, and work collaboratively with our partners to evaluate opportunities, make strategic decisions, and create value. When you work with Pearl, you get a true partner in all aspects of your business plan, not just a capital provider.
